

Dhia Eddine Abdelli

Software Engineer | Flutter & Mobile Development

Besançon, France | +33 7 75 75 38 06 | dhiaabdelli@gmail.com

Portfolio: dhia-eddine-abdelli.vercel.app | LinkedIn: linkedin.com/in/abdellidhia | GitHub: github.com/dhiaCodes

PROFESSIONAL SUMMARY

Software engineer specializing in Flutter applications, with experience in architecture, backend development and production delivery. Built products serving thousands of users across education, logistics, healthcare and gaming, including a logistics app for a French startup.

PROFESSIONAL EXPERIENCE

Freelance Mobile Developer | Wael Academy

Monastir, Tunisia | Jan 2025 – Present

- Built a Flutter and Supabase e-learning platform for web and mobile, serving approximately 8,000 users with around 200 active monthly subscriptions.
- Integrated Zoom live classes, course management, subscriptions, and dashboards for teachers and administrators.

Mobile Developer | Pura Solutions

Sousse, Tunisia | Feb 2023 – Present

- Led end-to-end development of NAEST, a mobile application for a French logistics startup.
- Implemented GPS tracking, real-time shipment status, Stripe payments and push notifications.
- Refined the interface using customer feedback and resolved bugs in collaboration with stakeholders.

Freelance Full Stack Developer | Sokari Care

Nabeul, Tunisia | Jul 2024 – Aug 2025

- Developed SoK'ari, a Flutter app supporting diabetes education, which reached 1,000+ users in its first month.
- Built and maintained an Express.js backend for authentication, data processing and SQL database operations.
- Gathered client requirements and used feedback from user testing to refine the interface and features.

Freelance Mobile Developer | XoSpace

Saudi Arabia | Jan 2024 – Jun 2024

- Contributed to LOLCards, a multiplayer card game with real-time player synchronization using SignalR.
- Implemented animations and push notifications that contributed to a 50% increase in user retention.

Co-founder & Mobile Developer | Servini Solution

Sousse, Tunisia | Feb 2022 – Jan 2024

- Co-founded a restaurant-booking startup that received the Ministry's Startup Act label and secured more than five client partners.
- Contributed to the Servini booking app and collaborated on updates and new features across more than three applications using Flutter and Firebase.

TECHNICAL SKILLS

Mobile & architecture: Flutter, Clean Architecture, MVVM, Provider, Riverpod, BLoC; Kotlin/Swift native plugins.

Backend & data: Express.js, Supabase, Firebase, REST APIs, SQL, Drift/SQLite, offline-first development, SignalR, Stripe.

Quality & performance: Unit, widget and integration testing, Mocktail, Flutter DevTools, pagination, lazy loading.

Delivery & tools: Git, GitHub Actions, Codemagic, Shorebird, Sentry; App Store and Google Play publishing.

App capabilities: Push notifications, deep linking, secure storage, animations, responsive interfaces, internationalization.

ADDITIONAL EXPERIENCE

Programming Instructor (Sessional) | Faculty of Sciences of Monastir

Monastir, Tunisia | Oct 2023 – Jun 2024

- Taught Python and C to an average of 50 undergraduate students per semester.

EDUCATION

Research Master's in Computer Science – Artificial Intelligence

Faculty of Sciences of Monastir | 2021 – 2023

- Developed a VGG16-U-Net model for mammographic mass segmentation using the CBIS-DDSM and INbreast datasets.

Bachelor's in Computer Science

Faculty of Sciences of Monastir | 2018 – 2021
